PRODUCING LINE

Your Best Choice of Packaging Solution

- Customized to your needs
- Easy to maintain, adjust, and operate
- Suitable for different working spaces

Semi-automatic Carton Sealing Machine

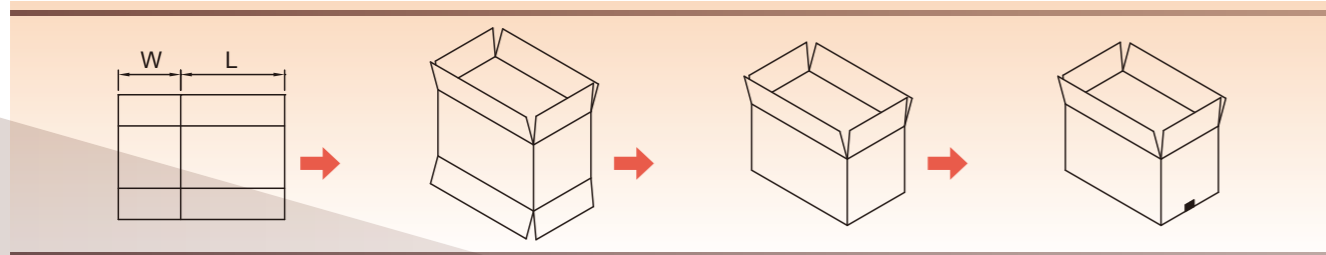

Fully-automatic Carton Sealing Machine

Carton Edge Sealing Machine and Carton Flap Folding Machine

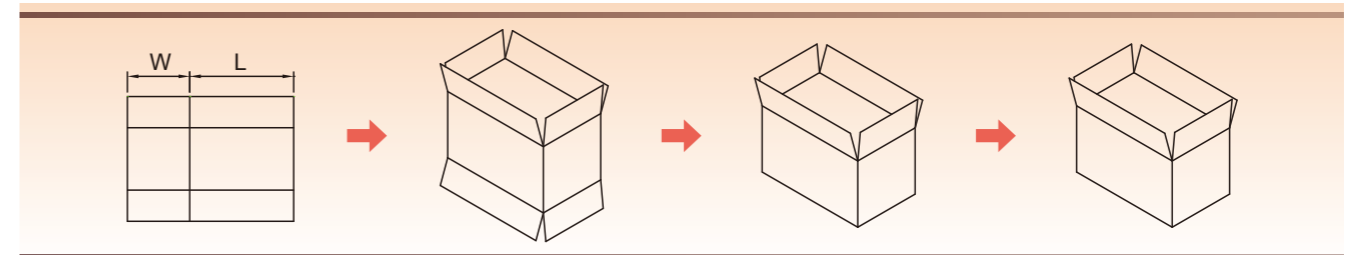

Vertical Type Carton Sealing Machine (Carton Erectors)

- The machine adopts touch-screen panel (HMI) with PLC control; it is easy to alter the program.
- It is suitable for automatic system to open, form, fold, and seal the carton at a time.
- Vertical type storage can supply the un-opened carton anytime.
- It is easy to adjust in accordance with the different sizes cartons.
- Optional in 100 or 50 cartons storage device.

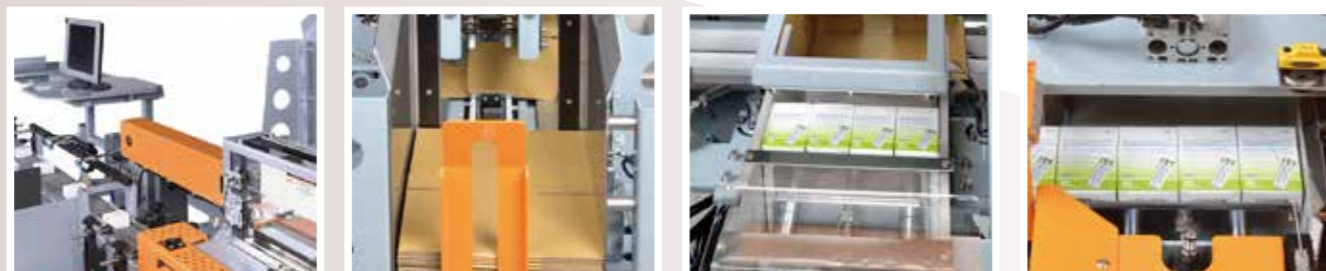

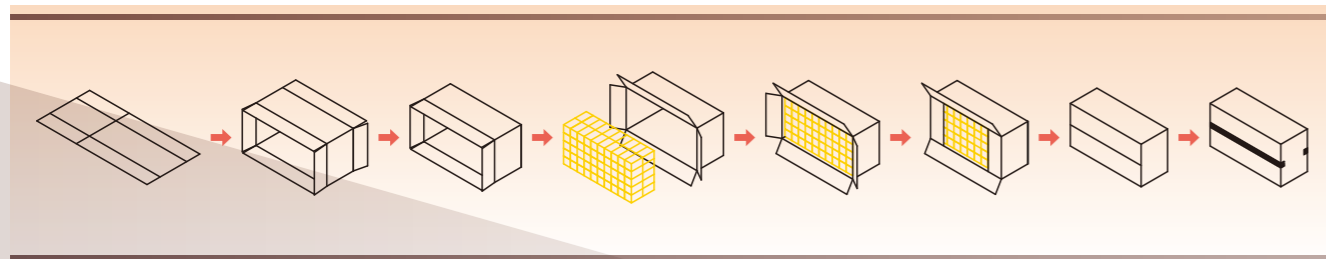

Vertical Type Carton Sealing Machine (Carton Erectors) With Hot Glue Machine

- The machine adopts touch-screen panel (HMI) with PLC control; it is easy to alter the program.
- It is suitable for automatic system to open, form, fold, inject adhesive, and press seal the carton at a time.
- Vertical type storage can supply the un-opened carton anytime.
- It is easy to adjust in accordance with the different sizes cartons.
- Optional in 100 or 50 cartons storage device.
- Suitable for types of automatic hot glue injectors.

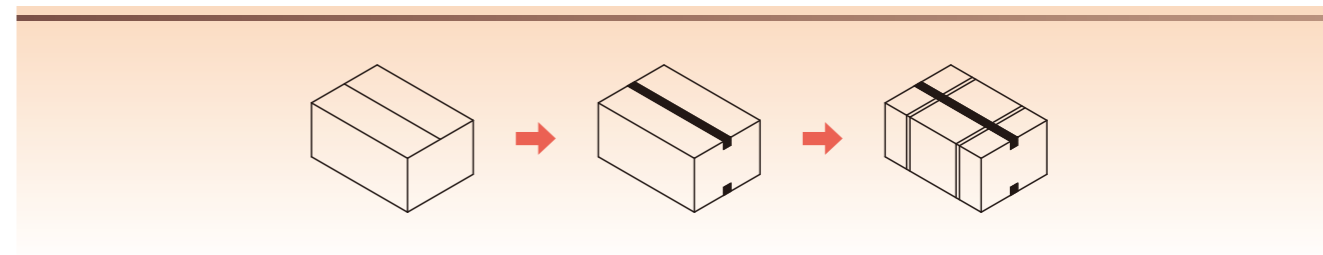

Horizontal Type Carton Sealing Machine (Carton Erectors) With Auto Loading Device

- The machine adopts touch-screen panel (HMI) with PLC control; it is easy to alter the program.
- It is suitable for automatic system to open, form, fold, load, and seal the carton at a time.
- Descending type carton loading can supply the un-opened carton anytime.
- It is easy to adjust in accordance with the different sizes cartons.
- Optional in 100 or 50 cartons storage device.
- Optional auto loading and stacking device

Economic Type Semi-automatic Extensive & Side Double Belts Driving Carton Sealing Machine.

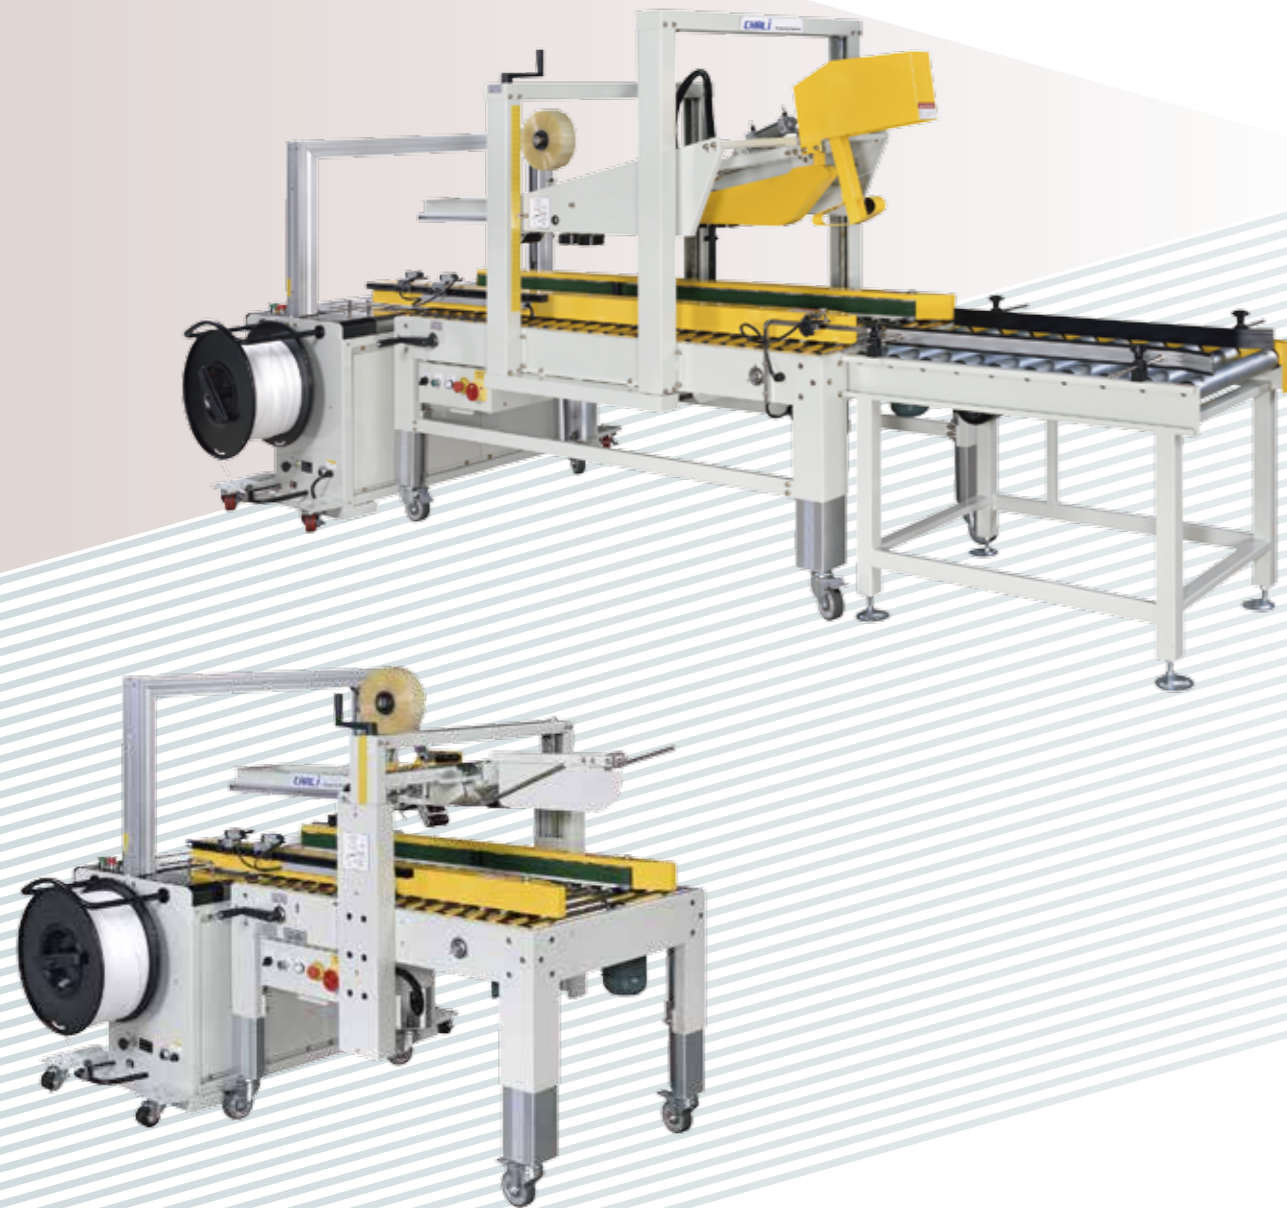

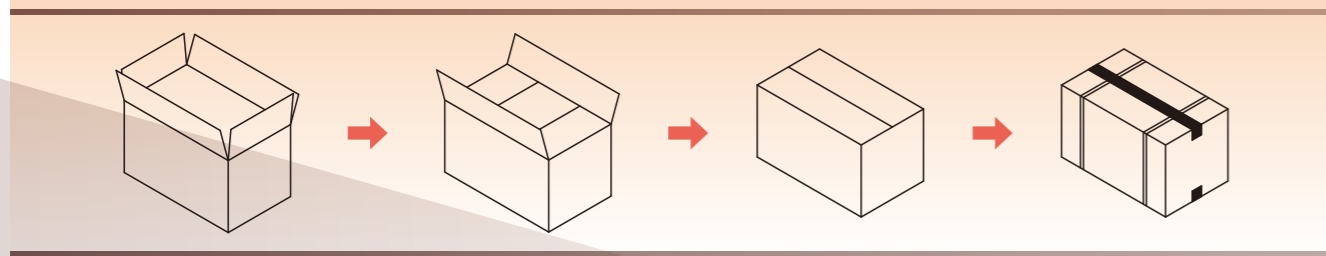

- Equipped with extensive and right & left sides double driving belts.
- Connected with strapping machine, conveyors or other packing equipment to be a complete packing line.
- Customize different carton size.

GX2AEX+JN-85LE

Economic Type Semi-automatic Extensive & Side Double Belts Driving Carton Sealing Machine with Folding Device.

- Equipped with extensive side belts device which connect with low table strapping machine.
- When the users feed the carton into the machine, the machine will automatically fold the front flap, rear flap and side flaps of carton, then process to tape the carton and send out the carton to the low table strapping machine.
- The height and the width of the carton can be adjusted by crank handle and it is easy to adjust.
- This packing line is suitable with low table height packing line.

GXF3+CXFEB

Automatically Carton Sealing Machine with Automatically Edge Carton Sealing machine Packing Line.

- When the users feed the carton into the machine, it will automatically adjust the carton size and seal, then deliver to next station for the edge sealing by auto adjust too.
- It is suitable packing line with different size of cartons.
- It is customize packing line. For more information, please provide more package details.
